

## OpenAtlas - Bug #1017

### Lines, Areas and Shapes get sometimes deleted

2019-04-26 14:51 - Bernhard Koschicek

<b>Status:</b> Closed	<b>Start date:</b> 2019-04-26
<b>Priority:</b> Low	<b>Estimated time:</b> 0.00 hour
<b>Assignee:</b> Christoph Hoffmann	
<b>Category:</b> Maps	
<b>Target version:</b> 3.17.0	
<b>Found in version:</b>	
<b>Description</b> Pls see the gif. It is the demo version, but the same happens in 3.16.0. I don't know when and why something is deleted, but sometimes I draw a new line and an old line suddenly switch color to grey and with the save it gets deleted/unlinked.
