

OpenAtlas - Feature #1183

Mouse over effect for table rows

2020-03-27 14:31 - Alexander Watzinger

Target version: 5.1.0	

Description

The new Bootstrap layout is very nice but because tables get stretched in width it's sometimes difficult to target the right row.

To help with this please add a mouse over effect for tables rows. Ideally it would be good visible but not too distracting, I'll guess there are already optimized themes available.
