| Description Add functionality to add files to objects (now called artifacts). | | | |

History

#1 - 2020-03-30 19:03 - Alexander Watzinger

- Target version set to 5.2.0

#2 - 2020-03-30 19:04 - Alexander Watzinger

- Subject changed from Add files to objects to Add files for objects

#3 - 2020-04-21 17:44 - Alexander Watzinger

- Target version changed from 5.2.0 to 6.0.0

- Assignee deleted (Alexander Watzinger)

- Status changed from Assigned to Acknowledged

#4 - 2020-09-30 12:29 - Stefan Eichert

I think we should overwork the objects anyway to allow for objects without context to be recorded (not only information carriers). Probably this will be a larger and more complicated feature. Maybe we can discuss this in one of the next meetings.

#5 - 2021-02-08 21:56 - Alexander Watzinger

- Assignee set to Alexander Watzinger

- Status changed from Acknowledged to Closed

Is implemented in the newest develop version.

#6 - 2021-03-05 16:00 - Alexander Watzinger

- Description updated

- Subject changed from Add files for objects to Add files for artifacts
