<b>Status:</b>	Closed	<b>Start date:</b>	2021-03-01

<b>Category:</b>	API		
<b>Target version:</b>	6.0.0		
<b>Found in version:</b>	5.7.2		

#### Description

The @context url in the JSON-LD string is no longer existent. There is a new version on the linked places github pages:

```
"@context": "https://raw.githubusercontent.com/LinkedPasts/linked-places/master/linkedplaces-context-v1.1.jsonld"
```

In our version it still points to:

```
"@context": "https://raw.githubusercontent.com/LinkedPasts/linked-places/master/linkedplaces-context-v1.jsonld"
```

Thank you for noticing. I changed it in the feature\_api branch, but it didn't find its way to development yet. I will change that.
