

OpenAtlas - Bug #1504

Special characters in type names

2021-04-28 13:50 - Nina Brundke

Status:	Closed	Start date:	2021-04-28
Priority:	Low	Estimated time:	0.00 hour
Assignee:	Alexander Watzinger		
Category:	Backend		
Target version:	6.2.0		
Found in version:	6.2.0		

Description

It doesn't seem to be possible to put a "-" into a type name. This was possible in the past though as you can see for the orientation types (https://thanados.openatlas.eu/types#menu-tab-custom_collapse-158197). It was possible to name them north-south but I tried to enter north north west - south south east today and wasn't able to put a "-" anymore (<https://thanados.openatlas.eu/entity/161336>).

History

#1 - 2021-04-28 15:13 - Nina Brundke

- Found in version set to 6.2.0
- Project changed from Nina to OpenAtlas

#2 - 2021-04-28 15:38 - Alexander Watzinger

- Target version set to 6.2.0
- Assignee set to Alexander Watzinger
- Status changed from New to Closed
- Category set to Backend

I (re)enabled to put a minus sign into type names and uploaded the develop version to Thanados.

Be aware that this version is under heavy development so you may notice other things. That's also why it is really appreciated if you report issues, no matter how small they seem.

As a bonus you now also have multiple file upload available, thanks to Berni.

Thanks again for reporting.
