

OpenAtlas - Feature #1537

API: Type entities for actor types

2021-06-23 12:24 - Bernhard Koschiček-Krombholz

Status:	Closed	Start date:	2021-06-23
Priority:	Low	Estimated time:	0.00 hour
Assignee:	Bernhard Koschiček-Krombholz		
Category:	API		
Target version:	6.4.0		

Description

The endpoint /type_entities will throw an 'No entity exist for this category.' error for "Actor actor relation", "Actor function" and "Involvement". The cause for this is that the attached entities are connected via a link. The actors are in the UI separated in Domain and Range.

One solution would be, that no matter if the actor is in range or domain, it will be selected for the endpoint, because the relation information is included at the entity itself.

Maybe we need to discuss this furthermore, or I just implement it as stated.

Thank you Christoph for reporting.

History

#1 - 2021-07-08 08:35 - Bernhard Koschiček-Krombholz

- Target version changed from API to 6.4.0

- Status changed from New to Closed

Now you can get results as expected, so a normal result object.

#2 - 2021-08-10 16:40 - Alexander Watzinger

- Subject changed from API: type_entities for actor types to API: Type entities for actor types
