

## OpenAtlas - Feature #1752

### Add a place column for subunits to type view

2022-06-21 10:39 - Nina Richards

<b>Status:</b> Closed	<b>Start date:</b> 2022-06-21
<b>Priority:</b> Normal	<b>Estimated time:</b> 0.00 hour
<b>Assignee:</b> Nina Richards	
<b>Category:</b> UI	
<b>Target version:</b> 7.5.0	
<b>Description</b> Would it be possible to also show a place in the overview lists such as: <a href="https://thanados.openatlas.eu/entity/119900#tab-entities">https://thanados.openatlas.eu/entity/119900#tab-entities</a> It would make it much easier to find specific cases then. Maybe it would be possible to make that optional to not crowd the list too much?	
<b>Related issues:</b> Precedes OpenAtlas - Feature #1541: Linking references to multiple subunits <span style="float: right;"><b>Closed</b>    <b>2022-06-22</b></span>	

### History

#### #1 - 2022-06-21 14:03 - Alexander Watzinger

I'm not sure I understand correctly. Do you mean:

Adding another column at the **table** at the **entities tab** when viewing a **type** that is (also) used for an **archeological subunit** to display the place name (linked) where it belongs to?

In case this is what you meant, it would be no layout issue (there are only 3 columns at the moment) so no need to make it optional for that. But it may have an impact on performance when we have to "find" the place if there are many entites displayed. We would have to test this.

#### #2 - 2022-06-21 14:41 - Nina Richards

Yes, I think that is what I mean - adding a column to the table that displays the place name that is connected to.

#### #3 - 2022-06-21 14:42 - Alexander Watzinger

- Category set to UI

- Status changed from New to Acknowledged

- Target version set to 7.8.0

Thanks for reporting and feedback, I added it to the roadmap.

#### #4 - 2022-06-21 14:44 - Alexander Watzinger

- Subject changed from Show "Place" in the overview lists to Add a place column to (archeological) type view entity tab

#### #5 - 2022-07-28 16:49 - Alexander Watzinger

- Status changed from Acknowledged to Assigned

- Assignee set to Alexander Watzinger

#### #6 - 2022-07-29 17:06 - Alexander Watzinger

- Status changed from Assigned to In Progress

- Assignee changed from Alexander Watzinger to Nina Richards

- Target version changed from 7.8.0 to 7.7.0

I implemented it in the branch **feature\_type\_tables** but performance is an issue e.g. when looking with a type with over 3,000 entities the site needs 2 minutes to load.

I already tried to optimize it but looking up thousands of entries if they have a place somewhere as super just takes time.

Assigning it to Nina so that we can look at it together and decided what to do.

#### #7 - 2022-08-09 13:25 - Alexander Watzinger

- Precedes Feature #1541: Linking references to multiple subunits added

**#8 - 2022-08-09 13:31 - Alexander Watzinger**

- Status changed from *In Progress* to *Closed*
- Target version changed from *7.7.0* to *7.5.0*

Is in develop, in case we get feedback about slow performance we can try to optimize the `get_place()` function in `models/place.py`

**#9 - 2022-08-09 13:33 - Alexander Watzinger**

- Subject changed from *Add a place column to (archeological) type view entitiiy tab* to *Add a place column for sub units to type view*

**#10 - 2022-09-18 15:39 - Alexander Watzinger**

- Subject changed from *Add a place column for sub units to type view* to *Add a place column for subunits to type view*
