

OpenAtlas - Feature #340

Multi user capability

2015-01-12 23:32 - Alexander Watzinger

Status:	Closed	Start date:	2015-01-12
Priority:	Low	Estimated time:	32.00 hours
Assignee:	Alexander Watzinger		
Category:	Backend		
Target version:	1.6.0		
Description			
<p>Try to avoid that changes get overwritten when users are logged in simultaneously.</p> <p>Display an error message if an entry was modified since the update form was opened.</p> <p>Limitations:</p> <ol style="list-style-type: none">1) Only the main entities are being checked on update (source, event, actor, place, reference. It could still be possible that e.g. a type name gets accidentally overwritten.2) For data consistency it was decided against providing an option to overwrite data which has changed in the meantime.3) Some advanced form elements doesn't behave like expected after an overwrite error e.g. jstree with multiple option isn't prefilled with chosen options, which shouldn't be a big issue, since the entry cant be saved in this state anyway.			

History

#1 - 2015-01-21 12:43 - Alexander Watzinger

- Project changed from 22 to OpenAtlas

- Category deleted (41)

#2 - 2015-03-09 10:50 - Alexander Watzinger

- Project changed from OpenAtlas to 19

- Category set to 37

#3 - 2015-05-29 16:32 - Alexander Watzinger

- Target version set to 41

#4 - 2015-05-29 16:32 - Alexander Watzinger

- Tracker changed from 6 to Feature

#5 - 2015-06-15 14:02 - Alexander Watzinger

- Project changed from 19 to OpenAtlas
