

## OpenAtlas - Feature #998

### Filter for Entity Overviews

2019-03-06 10:03 - Bernhard Koschicek

<b>Status:</b>	Acknowledged	<b>Start date:</b>	2019-03-06
<b>Priority:</b>	Low	<b>Estimated time:</b>	0.00 hour
<b>Assignee:</b>			
<b>Category:</b>	UI		
<b>Target version:</b>	Wishlist		
<b>Description</b>			
<p>It would be very comfortable if we can filter the entity overviews with their types, e.g. only show all events with the type "Building activity". In the contrary, it should also be possible to say, show me everything except "Building activity".</p> <p>For the UI it would be a additional switchable overview site.</p> <p>Hope it was clear ;)</p>			

### History

#### #1 - 2019-03-06 15:36 - Alexander Watzinger

- Subject changed from *Structured Filtered Entity Overview* to *Filter for Entity Overviews*
- Category set to *UI*
- Status changed from *New* to *Acknowledged*
- Target version set to *Wishlist*

Your were loud and clear. I also like the idea of filters for overviews but I'm not so sure about boolean operators like show me everything except "Building activity" because the next wish will be to combine them. Besides from being more work the user interface would get much less intuitive but thats just my personal opinion.

However, we can just start with "positiv" AND filters and see how it goes.
